o1 What have been the best aspects of your tutorials so far?

- Kahoots are great revision and are engaging. Going over lab material has been great too, very in depth and normally easy to follow.
- The best aspect is the way of teaching method from Mr Justin, he makes lessons interesting.
- everything is good
- engaging content, extra activities and explanations.
- He is kind to listen to others.
- Tutor teaches python skill clearly and help student patiently.

---

o2 What aspects of your tutorials most need improvement?

- Sometimes content gets a bit rushed so its a bit hard to keep up and understand but it seems less of a problem now since Justin always checks over class feedback.
  - Well, for me is all good
  - nothing
  - more participation from other students
  - Need to give more advice to students like me, sometimes I feel confused about lectures and materials
-
